

## C.P 9.0 Feedback (V 5.1)

### 1. System Maintenance > Registration

- a. System is being able to register without providing the company info first. It is compulsory for the user to fill in the company info first then they will be able to register. Also, after the registration the company info will be sealed for lifetime.

### 2. System Maintenance > Settings

- a. No pop-up message after saving the data paths. Make sure there is a pop-up confirmation message after 'SAVE' button is clicked.

### 3. System Maintenance > Users

- a. No notification when 'SAVE' button is clicked for any changes made to the users (Access Level, Username, Password).

### 4. System Maintenance > System Control

- a. Please do as following:
  - i. Disable 'ADD' button when putting input of 'Staff ID' and 'Staff Name'. Only enable 'SAVE' and 'CANCEL'.
  - ii. When selecting a Staff from the list, disable 'ADD' and enable 'EDIT' and 'DELETE'.
  - iii. Highlight the selected button of 'Locate D' / 'Locate B' when adding a Staff.
  - iv. Confirmation messages whenever 'SAVE' and 'DELETE' button is selected.

### 5. System Report > Import Data B

- a. 'EDIT' and 'SAVE' button is not working for 'Locate No Sender'. Enable the 'EDIT' and 'SAVE' buttons when 'Locate No Sender' is selected.
- b. View Order Taker
  - i. Unable to display sales report after user select the Start Date and End Date, then select 'SEARCH' button.
  - ii. When initially open, the sales report for current date (Selected from the 'IMPORT' button) is displayed. But when 'SEARCH' button is selected, the report is gone. It opens a message pop-up 'B1'/'D1' afterwards. What does it means?

- c. Cashier on Duty
  - i. Remove check-box.

**6. System Report > Import Data D**

- a. Unable to import existing database from date '30/7/2017'
- b. 3 pop-up messages of 'No EOD Found', then one pop-up message of 'Importing Complete'. Should only show either one, not both of the messages.

**7. View Order Taker/ View Order Sender**

- a. "Amount", cap it a 2 decimals.
